Note: It is really important that your puppy interacts with kids of different ages. Please go out of your way to find children who will follow direction well and not hurt or scare your pup by accident. Consider having as many new people as you can find give your puppy high value treats. Dogs who like kids, tend to be good with them.

Your puppy needs to meet and interact with at least 100 people before they are 20 weeks old. If you don't have access to that many people, consider hanging out with your puppy at a busy shopping area. You need to do that more than one time. Make field trips fun.

NOTE: Please make arrangements to stop in to your vets several times for some treats and love at times when your puppy does not have an appointment.

Your dog needs to see a lot of dogs that do not look like him. Bully breeds can be hard to read and without early experience, dogs can think they are being threatened by them.

Note: Be creative here! You can pile the treats on different weird surfaces and gently encourage your pup to step on. Never force your puppy to go on something. Help shape the puppy to think that this is their idea. Many large stores like Home Depot and Lowes allow puppies to come and train. Check with your local store before going. This will cover many things on your list. You need to go more than one time! Also, many outdoor cafes allow dogs.

\*\*Fireworks -please do not take your puppy to fireworks. If you know a holiday is coming like the 4th of July, be ready to make it a positive experience with lots of yummy treats, your jolly voice and a soothing music. If your puppy lives with a noise phobic dog, consider having the pup in a different location during these holidays. You can also find noises on line that you can condition your puppy to. Start at low levels of course.
